GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per $100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest.The designated officer or employee shall submit the rates to the governing body by August 7 or as soon thereafter as practicable. Tax Code Section 26.04(e-1) does not require school districts to certify tax rate calculations or comply with certain Tax Code notice requirements. School districts are required to provide notice regarding tax rate calculations pursuant to Education Code Chapter 44.

This worksheet is for **school districts without Tax Code Chapter 313 or Government Code Chapter 403, Subchapter T, Texas Jobs, Energy, Technology, and Innovation Act (JETI) agreements only.** School districts that have a Chapter 313 or JETI agreement should use Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School Districts with Chapter 313 and JETI Agreements.*

Water districts as defined under Water Code Section 49.001(1) do not use this form. Use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet.*

All other taxing units should use Comptroller Form 50-856 *Tax Rate Calculation, Taxing Units Other Than School Districts or Water Districts.*

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The Texas Education Agency (TEA) provides detailed information on and guidance to school districts in calculating their tax rates. Please review and rely on information provided by TEA when completing this worksheet. Additionally, the information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

Taxing units must include a hyperlink to a document that evidences the accuracy of each entry in the worksheet other than an entry making a mathematical calculation. [1] Source materials must contain data for all worksheets used.

SECTION 1: No-New-Revenue Tax Rate

The no-new-revenue (NNR) tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of revenue if applied to the same properties that are taxed in both years (no new taxes). When appraisal values increase, the NNR tax rate should decrease.

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
1.	**Prior year total taxable value.** Enter the amount of the prior year taxable value on the prior year tax roll today. Include any adjustments since last year's certification; exclude one-fourth and one-third over-appraisal corrections made under Tax Code Section 25.25(d) from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2). [2]	$ $210,851,647.00

Voter Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a voter-approval tax rate that is split into three separate rates.[21]

SECTION 2: Maximum Compressed, Enrichment and Debt Tax Rate Worksheet

This section calculates three components of the voter-approval tax rate:

1. **Maximum Compressed Tax Rate (MCR):** A district's maximum compressed tax rate is defined as the tax rate for the current tax year per $100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment.[22]
2. **Enrichment Tax Rate:**[23] A district's enrichment tax rate is defined as any tax effort in excess of the district's MCR and less than $0.17. The enrichment tax rate is divided into golden pennies and copper pennies. School districts can claim up to 8 golden pennies, not subject to compression, and 9 copper pennies which are subject to compression.[24]
3. **Debt Rate:** The debt rate includes the minimum dollar amount required to be paid toward the school district's debt service for the current year.[25] This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The MCR and Enrichment Tax Rate added together make up the school district's maintenance and operations (M&O) tax rate. Districts cannot increase the district's M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district's debt service.[26]

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate (disaster pennies) in the calculation this year. This adjustment will be made in Section 4 of this worksheet.

A district must complete an efficiency audit before seeking voter approval to adopt a M&O tax rate higher than the calculated M&O tax rate, hold an open meeting to discuss the results of the audit, and post the results of the audit on the district's website 30 days prior to the election.[27] Additionally, a school district located in an area declared a disaster by the governor may adopt a M&O tax rate higher than the calculated M&O tax rate during the two-year period following the date of the *declaration without conducting an efficiency audit.*[28] Districts should review information from TEA when calculating their voter-approval tax rate.

27.	**Current year maximum compressed tax rate (MCR).** TEA will publish compression rates based on district and statewide property value growth. Enter the school districts' maximum compressed rate based on guidance from TEA.[29]	$ 0.562800 /$100
28.	**Current year enrichment tax rate.** Enter the greater of A and B.[30] A. Enter the district's prior year enrichment tax rate .... $ 0.050000 /$100 B. $0.05 per $100 of taxable value .... $ 0.050000 /$100	$ 0.050000 /$100

30.	**Total current year debt to be paid with property tax revenue.** Debt means the interest and principal that will be paid on debts that: (1) Are paid by property taxes; (2) Are secured by property taxes; (3) Are scheduled for payment over a period longer than one year; and (4) Are not classified in the school district's budget as M&O expenses. A. **Debt** includes contractual payments to other school districts that have incurred debt on behalf of this school district, if those debts meet the four conditions above. Include only amounts that will be paid from property tax revenue. Do not include appraisal district budget payments. If the governing body of a taxing unit authorized or agreed to authorize a bond, warrant, certificate of obligation, or other evidence of indebtedness on or after Sept. 1, 2021, verify if it meets the amended definition of debt before including it here.[32] Enter debt amount: .... $ 695,101.91 B. [36]	$ 0.860300 /$100

SECTION 3: Adjustment for Pollution Control

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a school district that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

41.	**Current year voter-approval tax rate, adjusted for pollution control.** Add line 37 and line 40.	$ $0.8603000 /$100

SECTION 4: Prior Year Disaster Tax Rate Adjustment

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate in the calculation this year. [39] As such, it must reduce its voter-approval tax rate for the current tax year.

This section applies to a school district in a disaster area that adopts a tax rate greater than its voter-approval tax rate without holding an election in the prior year, as provided for by Tax Code Section 26.042(e).

NOTE: the Compressed Tax Rates (MCRs) are based in part on the value growth between current year and prior year and for 25-26 and beyond, the MCRS are based on the T2 values entered on the data entry tab.
Each year, TEA will determine your official MCR using CAD values as of 7/25, so the rate that this template calculates may be different from TEA's official, approved MCR, since CAD values and Comptroller values are seldom the same

(7) Total Max M&O Rate With TRE approval would be: (#6 + #4)	$0.9864	$0.9803	$0.7328	#DIV/0!	#DIV/0!	#DIV/0!

SEE NOTE ABOVE: Because HB 3 mandates that all Tier I compressed tax rates be within 90% of each other (no rate can be more than 10% different than any other rate) and because Comptroller property value data will not be available when you have to set your tax rate now that we have switched to using current-year values, TEA is going to use July 25th CAD values as the basis for calculating your Tier I compressed rate. Since your max TRE rate is simply your Tier I compressed rate + $.17, the max rates shown here are not the 'official' max rates. The 'official' max rates each year will be the Tier I compressed rate TEA calculates/approves + $.17, so you won't know your max rates until after TEA calculates it each year, reportedly sometime in the late July/early August timeframe

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per $100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest.The designated officer or employee shall submit the rates to the governing body by August 7 or as soon thereafter as practicable. Tax Code Section 26.04(e-1) does not require school districts to certify tax rate calculations or comply with certain Tax Code notice requirements. School districts are required to provide notice regarding tax rate calculations pursuant to Education Code Chapter 44.

This worksheet is for **school districts without Tax Code Chapter 313 or Government Code Chapter 403, Subchapter T, Texas Jobs, Energy, Technology, and Innovation Act (JETI) agreements only.** School districts that have a Chapter 313 or JETI agreement should use Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School Districts with Chapter 313 and JETI Agreements.*

Water districts as defined under Water Code Section 49.001(1) do not use this form. Use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet.*

All other taxing units should use Comptroller Form 50-856 *Tax Rate Calculation, Taxing Units Other Than School Districts or Water Districts.*

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The Texas Education Agency (TEA) provides detailed information on and guidance to school districts in calculating their tax rates. Please review and rely on information provided by TEA when completing this worksheet. Additionally, the information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The no-new-revenue (NNR) tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of revenue if applied to the same properties that are taxed in both years (no new taxes). When appraisal values increase, the NNR tax rate should decrease.

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
1.	**Prior year total taxable value.** Enter the amount of the prior year taxable value on the prior year tax roll today. Include any adjustments since last year's certification; exclude one-fourth and one-third over-appraisal corrections made under Tax Code Section 25.25(d) from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2). [1]	$ 214,093,572
2.	**Prior year tax ceilings.** Enter the prior year total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. [2]	$ 13,047,601
3.	**Preliminary prior year adjusted taxable value.** Subtract Line 2 from Line 1.	$ 201,045,971

15.	**Taxes refunded for years preceding prior year.** Enter the amount of taxes refunded by the district for tax years preceding the prior year. Types of refunds include court decisions, Tax Code Section 25.25(b) and (c) corrections and Tax Code Section 31.11 payment errors. Do not include refunds for the prior tax year. This line applies only to tax years preceding the prior tax year. [8]	$ 2,425.02
16.	**Adjusted prior year levy with refunds.** Add Line 14 and Line 15. [9] Note: If the governing body of the school district governs a junior college district in a county with a population of more than two million, subtract the amount of taxes the governing body dedicated to the junior college district in the prior year from the result.	$ 1,799,916
17.	**Total current year taxable value on the current year certified appraisal roll today.** This value includes only certified values and includes the total taxable value of homesteads with tax ceilings (will deduct in line 19). These homesteads include homeowners age 65 or older or disabled. [10] A. **Certified values.**[11] .... $ 243,671,329 B. **Pollution control and energy storage system exemption:** Deduct the value of property exempted for the current tax year for the first time as pollution control or energy storage system property:............ - $ 1,803,820 C. **Total current year value.** Subtract B from A.	$ 241,867,509
18.	**Total value of properties under protest or not included on certified appraisal roll.** [12] A. **Current year taxable value of properties under protest.** The chief appraiser certifies a list of properties still under ARB protest. The list shows the appraisal district's value and the taxpayer's claimed value, if any, or an estimate of the value if the taxpayer wins. For each of the properties under protest, use the lowest of these values. Enter the total value under protest. [13] .... $ 0 B. **Current year value of properties not under protest or included on certified appraisal roll.** The chief appraiser gives school districts a list of those taxable properties that the chief appraiser knows about but are not included in the appraisal roll certification. These properties are also not on the list of properties that are still under protest. On this list of properties, the chief appraiser includes the market value, appraised value and exemptions for the preceding year and a reasonable estimate of the market value, appraised value and exemptions for the current year. Use the lower market, appraised or taxable value (as appropriate). Enter the total value not on the roll. [14] .... + $ 0 C. **Total value under protest or not certified.** Add A and B.	$ 0

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a voter-approval tax rate that is split into three separate rates.[20]

1. **Maximum Compressed Tax Rate (MCR):** A district's maximum compressed tax rate is defined as the tax rate for the current tax year per $100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment.[21]
2. **Enrichment Tax Rate:**[22] A district's enrichment tax rate is defined as any tax effort in excess of the district's MCR and less than $0.17. The enrichment tax rate is divided into golden pennies and copper pennies. School districts can claim up to 8 golden pennies, not subject to compression, and 9 copper pennies which are subject to compression with any increases in the guaranteed yield.[23]
3. **Debt Rate:** The debt rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The MCR and Enrichment Tax Rate added together make up the school district's maintenance and operations (M&O) tax rate. Districts cannot increase the district's M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district's debt service.[24]

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate (disaster pennies) in the calculation this year. This adjustment will be made in Section 4 of this worksheet.

A district must complete an efficiency audit before seeking voter approval to adopt a M&O tax rate higher than the calculated M&O tax rate, hold an open meeting to discuss the results of the audit, and post the results of the audit on the district's website 30 days prior to the election.[25] Additionally, a school district located in an area declared a disaster by the governor may adopt a M&O tax rate higher than the calculated M&O tax rate during the two year period following the date of the *declaration without conducting an efficiency audit.*[26] Districts should review information from TEA when calculating their voter-approval tax rate.

SECTION 3: Voter-Approval Tax Rate Adjustment for Pollution Control

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a school district that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 4: Voter-Approval Tax Rate Adjustment in Year Following Disaster

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate in the calculation this year. [37] As such, it must reduce its voter-approval tax rate for the current tax year.

This section applies to a school district in a disaster area that adopts a tax rate greater than its voter-approval tax rate without holding an election in the prior year, as provided for by Tax Code Section 26.042(e).
